Part X - FIN 48 Footnote

DBS follows the Accounting for Uncertainty in Income Taxes accounting standard which requires DBS to determine whether a tax position (and the related tax benefit) is more likely than not to be sustained upon examination by the applicable taxing authority, based solely on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty

Part XIV Supplemental Information (continued)

percent likely of being realized upon settlement, presuming that the tax position is examined by the appropriate taxing authority that has full knowledge of all relevant information. During the year ended December 31, 2011, DBS's management evaluated its tax positions to determine the existence of uncertainties, and did not identify any matters that would require recognition or which may have an effect on its tax-exempt status.
